EDUCATION

Bachelor of Science in Computer Science, Software Engineering Concentration, Minor in Mathematics Graduated: December 2025
University of North Carolina at Charlotte | Charlotte, NC

Coursework in Digital Media, Culture, and Technology September 2021 – November 2022
Royal Holloway, University of London | Surrey, UK

PROJECTS

Portfolio Website

- Personal developer portfolio designed and built from scratch to showcase projects and technical experience
- Built with React and Tailwind CSS, deployed on Vercel

Game Night API

- Contributed to a collaborative backend service for planning and managing board game events, built with Node.js, Express, Prisma ORM, and PostgreSQL
- Developed the event module, implementing full CRUD operations for creating, updating, and deleting events
- Built event attendee functionality, allowing users to join events and view other attendees

Guess the Song App

- Developed an Android application where users guess songs from their Spotify library using the Spotify Web API
- Implemented user authentication with Firebase, including secure backend integration
- Designed multiple activities with smooth data exchange using Serializable and Bundles
- Debugged API permissions, OAuth flows, and app remote logic to ensure stable preview playback

Connect-A-Niner – Full Stack Web Application

- Built core pages and logic for a student-alumni mentorship platform
- Implemented responsive UI components using Bootstrap
- Collaborated on backend design using Django views, models, and templates
